## Wedding Film Package

## About Us

We absolutely love filming weddings.

We enjoy filming all of the behind the scenes moments that go into the most important day of our client's lives, the smaller details that they might not notice on the day (tunnel vision is a real thing, trust us), and all of their guests celebrating along. We love capturing the ceremony, speeches and 1st dance in all their glory. All for our clients to re-live their wedding day forever and ever.

We love weddings.
